Enclosure Integrity Certification

ASEM MOHAMMAD SAID

Has been certified by Retrotec as having completed the study course and exam for:
Live Level 3 (Exam) - Advanced Enclosure Integrity Testing and Evaluation
on multiple Door Fan operation, procedures to measure leakage distribution, and advanced
testing techniques - in accordance to NFPA 2001 Annex C, ISO 14520 & EN15004 Annex E

2020-11-14

Date presented:
Valid for 3 years

Ben Walker, CEO, Retrotec

4 NICET Continuing Professional Development Credits (CPD's)

Enclosure Integrity Certification

Wael Mohamed Ahmed Abo Shamaa

Has been certified by Retrotec as having completed the study course and exam for:
Live Level 3 (Exam) - Advanced Enclosure Integrity Testing and Evaluation
on multiple Door Fan operation, procedures to measure leakage distribution, and advanced
testing techniques - in accordance to NFPA 2001 Annex C, ISO 14520 & EN15004 Annex E

2020-11-14

Date presented:
Valid for 3 years

Ben Walker, CEO, Retrotec

4 NICET Continuing Professional Development Credits (CPD's)

Enclosure Integrity Certification

Nael Ahmed Ismaeil Thabet Abu Taha

Has been certified by Retrotec Inc as having completed the study course and exam for:

Advanced Enclosure Integrity Testing and Evaluation

on multiple Door Fan operation, procedures to measure leakage distribution, and advanced testing techniques - in accordance to NFPA 2001 Annex C, ISO 14520 & EN15004 Annex E

2021-11-14

Date presented

Ben Walker, CEO, Retrotec

Expiration Date : 2024-11-13

CertID: 40xvrfhe

Enclosure Integrity Certification

Mohamed Nagy Zaky Mohamed

Has been certified by Retrotec Inc as having completed the study course and exam for:

Advanced Enclosure Integrity Testing and Evaluation (Level 1-3)

on multiple Door Fan operation, procedures to measure leakage distribution, and advanced testing techniques - in accordance to NFPA 2001 Annex C, ISO 14520 & EN15004 Annex E

Subject: Regarding Approval of Jelsan Contracting Company (Phase III Project)

15/09/1442 Hicri
27/04/2021
Ref: 43/38/3933

To, SAB

With Regards,..

Assalamu Aleykum ,...

Hereinafter ,,

With reference to your letter Ref. No. J13-03300/L-KKU-00311 dated on 08/03/2021 regarding request for approval of Jelsan contracting Company.
We inform you that there is no objection for the approval of the company to conduct testing, operation and calibration tests for air-conditioning systems, as they are previously approved and conducted tests for the cooling systems in the university administration building and the university hospital on the 5th floor.

With best regards,

Engr. Ali Fayez
KKU GM for Projects

Dear Eng. Abdulaziz,

kindly request you to provide us with your final approval for revised BMS technical submittal with our following comments:-

<https://we.tl/t-6A5ZsH85KJ>

- a. This approval is based on what is agreed between NDF IT department and Honeywell.
- b. Contractor to provide a sample for thermostat for approval.
- c. Contactor to ensure that all BMS points in final approved shop drawings are covered as requested.
- d. Contractor to follow Manufacturer/Supplier recommendation for installation and execution in compliance with project specifications
- e. Contractor to provide the Manufacturer/Supplier confirmation on drawings and the cable types.
- f. Contractor to provide detailed single line diagram.
- g. Contractor shall assure full system integration with other systems to form and unfired operation interface, and integration or interface with others related systems.
- h. Final Quantities shall be as per Approved/stamped BOQ & latest approved shop drawings
- i. This conditional approval will be subjected to fulfilment of all the stated comments.
- j. Final approval is subjected to client approval.

Regards

Rajae Madi

DOCUMENT REVIEW FORM	
Contract No: KAFD 00227	Work Package No: S101 Stage-2 (MEP Subterranean Roads and Utility Tunnels Completion Works)

Submittal Ref. No: KAFD-A0-101-FFX-COM-SAR-00001	Rev. No.: 00
Submittal Date: 06 April 2021	DRF No.: KAFD-RY-RIA0-S101-SCS-FFX-DRF-00623
Submittal Title: S101 – SAR for GLSAN Contracting Company for BMS	DRF Date: 10 April, 2021

Review Comments:

A. General:

1. Submit previous project completed for BMS.
2. Testing, commissioning and programming shall be done by Honeywell being the approved BMS supplier.
3. SAR approval does not relieve the contractor from MAR approval.
4. Final acceptance of GLSAN is subject to JLL approval.

B. BMS:

1. In separate submittal, submit engineering submittals for BMS which includes the following but not to limited to:
 - a. System architecture
 - b. BMS Riser diagrams
 - c. Overall connectivity layout (TCP/IP)
 - d. BMS point lists (Input / Output)
 - e. Sequence of Operations
 - f. DDC panel diagrams
2. The Engineering submittal must comply with the latest IFC drawings.

Result of Review:
 Approved with comments – Code B
 Forward to JLL for review and approval.

Comments / Replies Legends & Status

No.	Initial	Page / Section / Sheet	Comment Code	Reviewer Comment	Reply Code	Originator Reply	Open / Closed
1	SG		2	PQD are already approved for Galsan contracting company (for DMS) through submittal KAFD-RY-RIA1-PGEN-SAB-COM-PQD-00051.			Reply Status by Reviewer
2	SG		2	Vendor's letter is attached to certify that previous model numbers of CTs (EMU ASK 31/ASK 41/ASK 51) are ceased from manufacturing, and instead have proposed new series EMU EMCT for kWh meters.			
3	SG		2	Second letter from INTEGRA metering (ex AQUAMETRO) certifies that AMBUS NET has been phased out by the vendor and replaced by new generation product AMBUS LINK.			
4	SG		1	Proposed replacements (of CTs & MBUS link) are acceptable subject to proper functioning & compatibility of proposed products with the existing DMS without the requirement of any extra hardware or software.

				<p>Final acceptance of GLSAN is subject to KAUST project management team approval. The project specification needs to be complied fully. An organization chart to be provided for the team that shall be working on the project along with the resume to be submitted. Valve ,flow meter, and cable are not part of the review as the Valve schedule and cable schedule have not been provided as requested in the previous revision. Temperature sensor and thermowell length need to be selected based on the Pipe diameter So that the desired area is covered. Differential pressure transmitters need to be selected with a field display.</p>

Comments Sheet

Submittal Ref. No: MC-PH01-P04-15A02-SAB-MAT-ELE-000032
Rev 01

Submittal Title: FIRE ALARM & EVACUATION SYSTEM

Review Comments: CODE" B"

1. Installation shall be as project requirement and specialist recommendations.
2. Product certificate is to be signed by manufacturer of the system components certifying that product furnished comply with project specifications to be provided with MIR.
3. Spare parts availability letter from Honeywell/GLSAN shall be stamped and attached to MIR.
4. Contractor is responsible to provide a complete workable solution to follow contract documents will all needed materials and accessories regard less it is mentioned in the BOQ or not without any additional cost.
5. Final quantity of material is subject to shop drawing approval and shall be as per project BOQ and specifications.
6. Contractor is requested to clarify the calculations bases for voltage drop & battery sizing voltage drop calculations & battery sizing to be submitted in a separate submission.
7. Certificate of origin and certificate of conformity for goods exported to KSA shall be submitted with MIR.
8. System operation description/cause and effect matrix shall be submitted after shop drawing approval.
9. FAS shall interface with BMS, so contractor shall take in his consideration the submitted FACP is coordinated with BMS requirements.
10. Warranty certificate shall be started from substantial completion date and the warranty shall follow the contract documents.
11. It is the responsibility of contractor to coordinate connection and testing of the system upon connection to the central station.
12. The system shall have spare parts not limited to 5% for smoke and heat detector, 2% detector base installed not less than one unit in each type in specs clause 1.12 A. as per project specifications.
13. Sequence of operations shall be submitted separately.
14. Smoke-alarm verification activate an NRTL-listed and approved "alarm verification" sequence at fire alarm control unit and detector.
15. Install grounding electrode of type size, location, and quantity as indicated. Comply with installation requirements in division 26b section "grounding and bonding".
16. Fire alarm system shall be integrated with PAVA system for evacuation.

Document No:

Comments Sheet

17. Contractor shall be submitting riser diagram and shop drawing with cable sizing, cable routing, dimensions of fire alarm detector's location.
18. Supplier/specialist shall be submitting a sample from each product.
19. The system must have interfacing with LAN, telephone line, BMS through built in back net card, HVAC system, CCTV system, Firefighting and audio-visual system as per project specifications and design.
20. All conduits and accessories shall be from single manufacturer and MIR to be submitted upon receiving material on site.
21. Strict compliance to project specifications and BOQ any deviations shall be contractor full responsibility.
22. The contractor has full responsibility to fulfill system operation, functionality and compatibility.
23. Final approval is subjected to final system functionality and testing and commissioning.

SECTION 14 :

POLICIES STATEMENT

ENVIRONMENTAL POLICY STATEMENT

Senior Management endorses this Environmental Policy and ensures that it is communicated, understood, implemented and maintained at all levels within the Company and ultimately, that it achieves its intended outcomes.

Senior Management promotes to and is committed to the continual improvement of the Integrated Business Management System (IBMS) to enhance its environmental performance and minimize its ongoing impact on the global and local environment.

This is facilitated through the setting of environmental objectives based on its significant environmental aspects, compliance obligations and considering its operational risks and opportunities. The results of which are communicated to interested parties, where appropriate.

The Company is committed to ensuring that it:

- Complies with all compliance obligations, where these relate to its environmental aspects and ISO14001:2015.
- Provides employees and others with the resources needed for the BMS, including support, direction, and encouragement to fulfill the requirements, commensurate with their role.
- Strives to integrate the IBMS into all business processes.
- Considers the environmental lifecycle of products, prevents pollution, and meets other specific relevant commitment(s).
- Manages and minimizes its waste by reducing its waste generation and by segregating, reusing, and recycling waste where economically and operationally feasible.
- Uses energy, water, materials, and other natural resources as efficiently as possible, giving particular regard to the long-term sustainability of consumable items.
- Ensures that the environment is considered in the procurement of goods and services.
- Gives appropriate consideration for protecting the environment in the goods and services it provides to customers.
- Works with interested parties to encourage ongoing improvement to the global and local environment.
- Supports other relevant management roles to demonstrate leadership as it applies to their areas of responsibility.

GCC certifies that the Scope of the IBMS and all associated documentation accurately describes its use within the Company such as to meet the requirements of ISO 14001:2015. The IBMS will be monitored, measured, evaluated, and enhanced regularly under the Senior Management's ultimate responsibility, with regular reporting and communication of its status and effectiveness at all levels

General Manager of GCC

HEALTH AND SAFETY POLICY STATEMENT

GENERAL

This Company is committed to ensuring the health, safety, welfare and wellbeing of its employees, so far as is reasonably practicable. We also fully accept our responsibility for other persons whose health and safety may be affected by our activities. We will take steps to ensure our statutory duties are met at all times to include the provision of adequate resources to protect both our employees and others who may be affected by our work activities.

Every new employee will be given Health and Safety guidance when they join the Company and each employee will be given refresher information, instruction and training as is necessary to enable the safe performance of work activities.

Adequate facilities and arrangements will be maintained to enable employees to raise issues of Health and Safety.

Competent people will be appointed to assist us in meeting our statutory duties including, where appropriate, specialists from outside the Company. Each individual has a legal obligation to take reasonable care for his or her own health and safety and for the safety of others who may be affected by his or hers acts or omissions.

The successful implementation of this Policy requires total commitment and co-operation from all levels of management and employees within our company.

RESPONSIBILITY

Management will:

- Actively seek the cooperation and suggestions for improvements from all employees in relation to our Health and Safety Policy;
- Provide adequate information, instruction and training to ensure so far as is reasonably practicable the health and safety at work of employees;
- Provide and maintain a safe and healthy working environment, with statutory obligations as a minimum requirement;
- Maintain the workplace in a safe and risk-free condition and provide a safe means of access to and egress from the workplace;
- Have arrangements for ensuring the safe use, handling, storage and transport of articles and substances;
- Provide and maintain plant, equipment and systems of works that are safe and without risks to health.

Employees will:

- Conform to rules, procedures and training regarding safe working;
- Use the correct methods of work and not improvise by using methods, tools or equipment which entails unnecessary risks;
- When there is a legal requirement to, or where the nature of the work requires it, wear the protective clothing and equipment specified;
- Report unsafe plant, tools and equipment and unsafe practices or methods of work;
- Report any potential Health and Safety hazard including infections or other diseases, accidents, injuries or concerns associated with the workplace;
- Assist in the maintenance of good housekeeping standards;
- Cooperate with us to enable all statutory duties to be complied with;
- Assist where necessary in the investigation of any accidents that occur.

Our Company arrangements for First Aid, Emergency Evacuation, Fire Safety and Accident Reporting are all displayed on our Company notice boards. These are also contained within our Company Health and Safety Manual.

The Company has a Policy of promoting continual improvement and setting of quality objectives in line with the framework laid down within the ISO 45001 :2018 Standard. These objectives will address the risks and opportunities within the Company, as determined by senior management.

The Company hereby certifies that the scope of the IBMS and all associated documentation accurately describes the IBMS in use within the business such as to meet the requirements of ISO 45001 :2018

The Directors of P A Collacott & Co endorse this Health & Safety Policy Statement and that responsibility rests with them to ensure that it is communicated, understood, implemented and maintained at all levels within the business and ultimately that it achieves its intended outcomes.

This will be on a minimum an annual basis.

General Manager of GCC

QUALITY POLICY STATEMENT

It is the Policy of GCC Company to provide a high quality, professional and efficient service in order to ensure the satisfaction of all of its interested parties. This Quality Policy Statement will result in securing efficiency, a strong customer focus and the enhancement of long-term sustainability and profitability within the business.

Senior management will show leadership and commitment and acknowledge responsibility for establishing, implementing, integrating and maintaining the Integrated Business Management System (IBMS). The Company undertakes to ensure that sufficient resources are made available to achieve this.

It also undertakes to ensure through communication, engagement, practical example and training that Quality is the aim of all employees of the Company.

Through direction and support, each employee will have a proper understanding of the importance of the IBMS, their responsibility to contribute to its effectiveness and its direct relevance to the success of the Company.

Equally, every employee is responsible for and will be trained in the duties required by his or her specific role.

The Company has a Policy of promoting continual improvement and setting of quality objectives in line with the framework laid down within the ISO 9001:2015 Standard. These objectives will address the risks and opportunities within the Company, as determined by senior management.

The Company hereby certifies that the scope of the IBMS and all associated documentation accurately describes the OMS in use within the business such as to meet the requirements of ISO 9001:2015.

The Directors of P A Collect & Co endorse this Quality Policy Statement and that responsibility rests with them to ensure that it is communicated, understood, implemented and maintained at all levels within the business and ultimately that it achieves its intended outcomes.
